Loren -

It is possible that Clancy may have sent Mike an email with David Cooper's memo regarding "Next Steps on TASC" at SSFL. Could you check with Mike about this? If you and Mike think its appropriate, please forward that memo to Nicole, Mary and I so we can get familiar with it. I haven't spoken with David Cooper about this in a while but I understand that his next step is to brief Keith (with us in the room) on this issue before the next SSFL Community Work Group scheduled for October 22. Depending on what David's memo says, we may need to pre-meet with Clancy and David to see if the Program and Community Involvement folks can get on the same page prior to the briefing for Keith.

Prior to any meetings on internal meetings TASC, if you wish, Nicole and/or I can brief you on past events and EPA communications regarding TASC at SSFL. In short, Nicole and I do not necessarily agreed with David Cooper on the appropriate next steps but we would like to see his memo first. Due to the fractured community groups at SSFL, EPA has not been able to figure out a way to move forward with TASC at SSFL without furthering an already divisive situation (i.e. which group should get a TASC consultant, how do we get the community groups to cooperate on this issue, etc).

Let me know if you have any questions.

Thanks,  
Craig
